DOCUMENT CONTROL

Document ID	NSM-PLN-001	Version	0.1
Status	Draft	Date	2026-11-02
Author	Amish Chadha	License	CERN-OHL-S-2.0
Project TRL	TRL 3 Proof of concept		
Repository	github.com/BoujeeEnjinia1701/noisemap		
Source	docs/11-plan.md @ ffa26f8		

REVISION HISTORY

Version	Date	Author	Change
0.1	2026-11-02	Amish Chadha	First issue (kit 1.8 pipeline)

NoiseMap project plan

Current stage: P3, design outputs (TRL 3, paper). The next gate is P4, verification, which is on hold under the portfolio cap. Decision requested: choose between concept options A and B (within 10 %) or confirm A as the design of record (NSM-DDR-004, "Proposed, awaiting Amish"). Method: STANDARDS sections 19 and 23.

Workstreams

Table 1. Workstreams.

Workstream	Owner (role)	Deliverable	Status
Problem and users	Design lead	NSM-PRB-001 with users and stakeholders	Done (v0.7)
STEM check	Design lead	NSM-STM-001, `docs/04-calcs/stem_check.py`	Done; independent review recorded
Concept options	Design lead	NSM-OPT-001, three options modelled at D3, NSM-DDR-004	Done; choice awaiting Amish
Requirements and traceability	Design lead	NSM-URS-001, NSM-PRS-001, NSM-RTM-001	Done; no gaps
Calculations	Design lead	NSM-CAL-001	Done (option A)
CAD	Design lead	`cad/src/model.py` (kit 1.9, D3), STEP, drawings NSM-DWG-001 and 101 to 106	Done
Build plan and BOM	Design lead	NSM-BLD-001, `bom/bom.csv`	Done
Regulatory, feasibility, risk, market	Design lead, regulatory consultant	NSM-REG-001, NSM-FEA-001, NSM-RSK-001, NSM-MKT-001	Done; several items to assess
Co-design	Partner (to find)	Reviewed URS and PRS	Not started (no partner agreed)
Verification (TRL 4)	Test lead	Test plans, reference-meter comparison	On hold (portfolio cap)

Resources needed

Table 2. Resources. Planned work only; nothing here is started or purchased. Costs are not estimated where a partner or consultant would set them (to assess).

Resource	Deliverable	Effort	Estimated cost (USD)
Acoustics partner with a class 1 meter	Side-by-side comparison for PR-003 to PR-005	To assess	To assess
Regulatory consultant	Items marked to assess in NSM-REG-001	To assess	To assess
Data protection adviser	GDPR review of the levels-only claim	To assess	To assess
Workshop with sawing, bending and printing	Prototype parts (TRL 4)	To assess	NoiseMap parts 72.00 plus FieldNode core 139.00 per node (priced BOM)

Stage gates

Table 3. Stages (P4 to P6 on hold while the stage cap is P3).

Stage	Gate criteria	Status
P0 Proposal	PRB with users, STM, OPT, REG, FEA, PLN	Passed
P1 Definition	URS, PRS draft, RSK, MKT	Passed
P2 Design inputs	PRS with targets, CAL, RTM, DDR, STM closed	Passed
P3 Design outputs	Model (D3), STEP, drawings, priced BOM, build plan, DEC, design FMEA, traceability complete	Reached 2026-11-02
P4 Verification	Test plans and reports, reliability plan	On hold
P5 Validation	Field trial with a partner	On hold
P6 Commercialization	Launch plan, with a named deployment partner	On hold

Next steps and decision requested

1. Amish decides the concept (NSM-DDR-004): carry A, carry B, or carry A and offer B as a companion node.
2. Find the co-design partner decided on 2026-10-02 and revise NSM-URS-001 and NSM-PRS-001 with them.
3. When the cap is lifted: plan the TRL 4 reference-meter comparison for the three at-risk requirements. Not started.
